Eligible Work

This program is aimed to address health and safety concerns in eligible City of Newburgh households which are owner-occupied and the owner qualifies as low income on the HUD scale. Eligible work includes:

- Water and Sewer laterals
- Roof repairs
- Heating system repair and replacement
- Water heating repair and replacement
- Electrical system repair and replacement
- Handicap accessibility
- Other emergency repairs (for which a city violation has been issued).

Program Terms

There is a maximum loan amount of \$20,000 for the owner's unit and a maximum of \$15,000 for rental units in the home. The actual loan amount will be determined by the scope of work approved for the project. If there is a rental unit, it must be occupied by a tenant earning less than 80% of the AMI. The City requires documentation confirming the income of the tenants.

The loan will be recorded as a lien on the property.

For Very Low Income Applicants (less than 50% of the AMI):

The loan is provided for a five (5) year term and will be reduced by 10% for each year the applicant remains in occupancy of the property. No repayment is required during this period. At the completion of the sixth (6th) year, the loan will convert into a grant and no payment will be required. If the property is sold or transferred during the six (6) year period the prorated amount of the loan due will be due to the City and will be deposited back to the CDBG fund. The lien will be released at the end of the six (6) year period.

For Low Income Applicants (earning less than 80% of AMI but not less than 50% AMI):

The loan is provided for a ten (10) year term at a rate of 0% interest. Monthly loan payments will be due throughout this term. If the owner-occupant sells or refinances the property prior to the ten (10) year period, the prorated amount will be due back to the CDBG fund. The lien will be released at the end of the ten (10) year period.

APPLICATION PROCESS

1. Once the application is submitted, it will be checked for completeness. If the application is not complete or there are missing documents the applicant will be informed of the omissions and the application will not be reviewed until completed.
2. Completed applications will be reviewed for income eligibility and underwriting criteria. Credit reports will be obtained and reviewed.
3. A building code officer (or his/her equivalent) will inspect the property and complete a Housing Quality Survey to determine the scope of the work required to address the emergency.
4. A second inspection at the property will be scheduled for contractors, to procure three estimates for the job.
5. When all documentation is received in the Planning and Development Office it will be packaged and presented to an independent loan committee for review and approval. The application and the construction estimates will determine if the project is eligible to proceed. A notification letter will be sent to the homeowner advising them of the committee's decision.
6. Contracts, bond and mortgage are then prepared and signed by the City and the property owner.
7. A pre-construction meeting (including representatives of the City, the selected contractor, and the home-owner) will be held to review the work schedule. After this meeting, work can begin.
8. Once the work has been completed and inspected, the owner and inspector will sign off that the work was completed in a satisfactory manner in accordance with the program.
9. All documents are submitted to the Department of Planning and Development for review and payment.
